DETAILED ACTION

This office action is in response to the applicant's amendment dated 9/30/2005.

The applicant has amended Claims 2, 4, 7, 10 and 12.

The applicant has cancelled 1, 8, 9, 11, 19, 20 and 22.

The examiner has previously allowed Claim 23, and has objected to Claim 9 as being allowable but dependent on a rejected base claim.

Claims 2-7, 10, 12-18, 21 and 23 are pending.

Response to Amendment

1. In view of the newly cancelled claims and amendments, the examiner believes all pending claims are now allowable; therefore all rejections under 35 USC 103 have been withdrawn.

Allowable Subject Matter

2. Claims 2-7, 10, 12-18, 21 and 23 are allowed. The following is an examiner's statement of reasons for allowance: The reference art of Dreibelbis, and the further teaching of Wong, teach an integrated circuit/method for determining setting data for a setting memory of a memory determined to be defective, comprising a processor, buffer memory, and setting memory, all interconnected, with the setting memory only accessible by the buffer memory shift register. However, the prior arts of record taken alone, or in combination failed to teach, anticipate, suggest, or render obvious the claimed invention or the method steps of the application. Specifically, as per Claim 23

Art Unit: 2138

and 12, the prior arts failed to teach, anticipate, suggest, or render obvious the limitation introduced into the claim, namely: the buffer memory shift register has at least one switch subdividing the shift register into registers for use of the processor.

Consequently, independent Claims 12 and 23 are allowed, and dependent Claims 2-7, 10, 13-18 and 21 are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 2-7, 10, 12-18, 21 and 23 are renumbered as Claims 1-16.
